

ENVIRONMENTAL SETUP

Date	16 Oct 2022
Team ID	PNT2022TMID37544
Project Name	CUSTOMER CARE REGISTRY

FLASK SETUP:

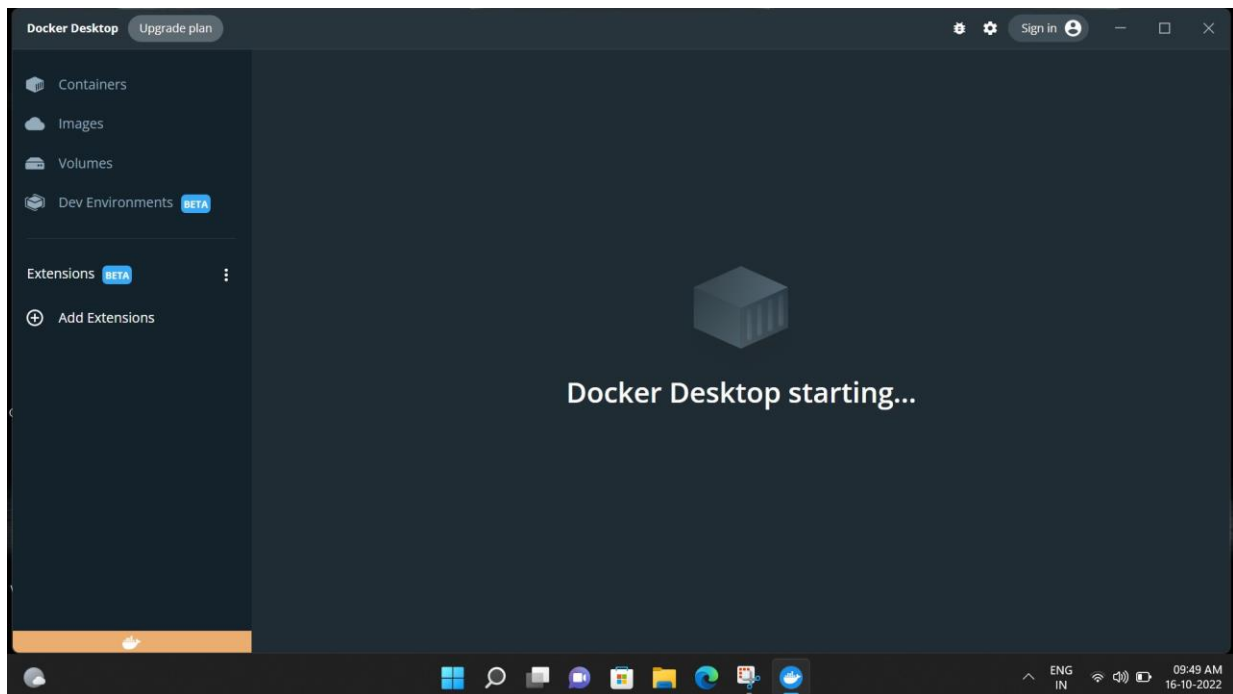

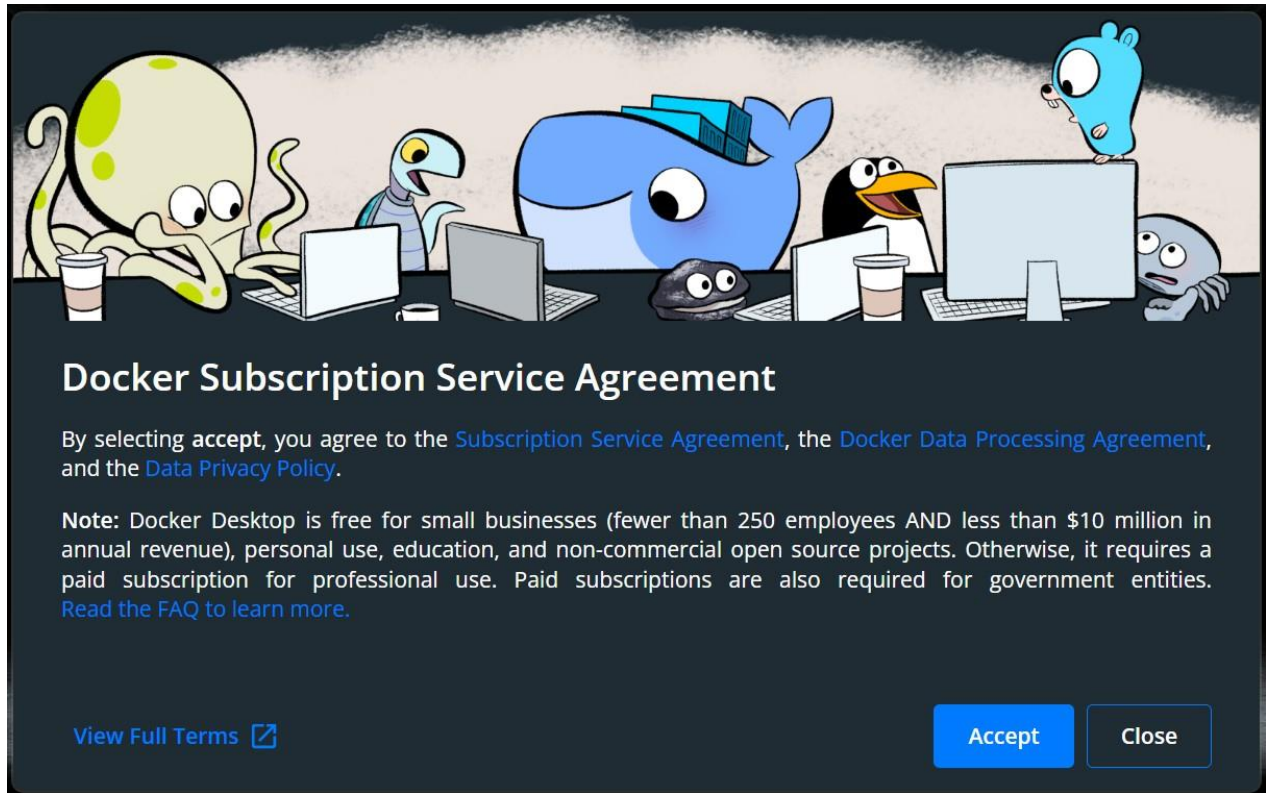

Hello World

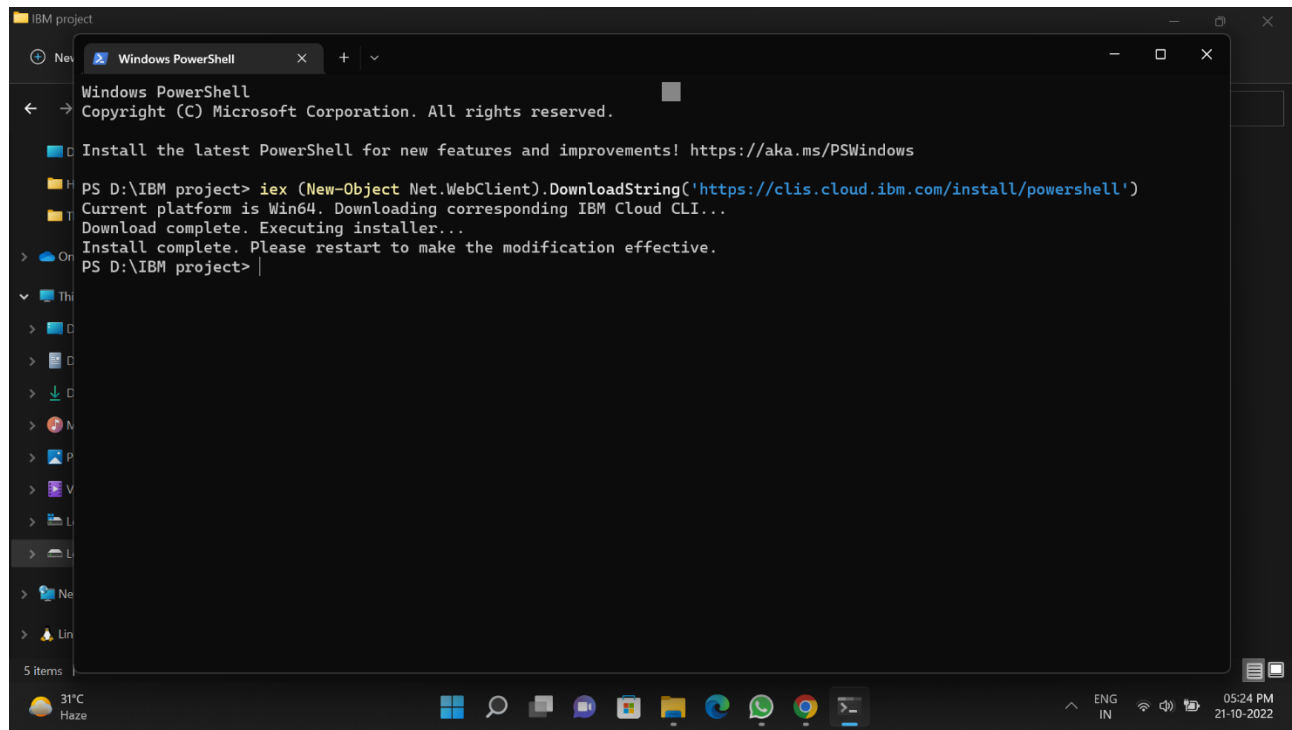

DOCKER SETUP:

The screenshot displays the IBM Cloud Dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo and a search bar. Below the navigation bar, the main content area is divided into several sections. The 'For you' section features a grid of cards: 'Build' (purple background), 'Monitor your resources', 'Set up your IBM Cloud account', 'Use Cloud Foundry', 'Create a Kubernetes cluster', 'Discover the Watson Internet of Things (IoT) Platform', 'View APIs and SDKs', and 'App Connect'. Each card provides a brief description and a 'Getting started' or 'Recommended' button. Below the 'For you' section, there's a 'News' section with a blue background, containing three articles. To the right of the news, there are three smaller sections: 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'. The 'IBM Cloud status' section shows a world map and indicates 'No issues'. The bottom of the dashboard features a footer with a weather widget and a system tray.

The screenshot shows the SendGrid web interface. On the left is a sidebar with navigation links: Client Name, Dashboard, Marketing, Templates, Stats, Activity, and Suppressions. The main content area displays a confirmation message: 'API Key Created' with a key icon. Below this, it says 'Please copy this key and save it somewhere safe.' and 'For security reasons, we cannot show it to you again'. A long, greyed-out string representing the API key is shown, with a mouse cursor pointing at it. At the bottom of the main area is a 'Done' button. On the far right, there is a vertical 'Feedback' button.

IBM CLOUD CLI INSTALL :

```
Windows PowerShell
Copyright (C) Microsoft Corporation. All rights reserved.

Install the latest PowerShell for new features and improvements! https://aka.ms/PSWindows

PS D:\IBM project> iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')
Current platform is Win64. Downloading corresponding IBM Cloud CLI...
Download complete. Executing installer...
Install complete. Please restart to make the modification effective.
